

Garnet Paper

Natural garnet-crystal sandpaper, open coat to reduce loading, is excellent for fine finishing on flat or irregular wood surfaces. This flexible paper is ideal for using over sealers and under coats. It is a favorite of carpenters for work on cabinets.

ABRASIVES

PSA Disc-Alum. Oxide Cloth

Small PSA discs are designed for portable tool applications which call for greater disc strength than paper discs. They are efficient on flat and contoured metal surfaces, and hard-to-reach areas. Large PSA discs are used on stationary disc sanding machines for dimensioning and finishing metal work pieces.
